

# MAKE A GIANT Gingerbread Kid!

Gingerbread men are common during the holiday season, but do you know what isn't? Life-sized gingerbread kids! This is a great opportunity for your child to **PLAY** and let their imagination soar.

## Materials Needed:

- A large roll of paper
- Your child's favorite art supplies and decorating utensils (crayons, markers, paint, etc.)

## Optional Materials:

- Black marker or sharpie
- Tape
- Stickers

## Make a Gingerbread Kid:

1. Have your child lie down on a large piece of craft paper, and trace around them with a pencil. It may be best to tape the paper to the ground to keep it from moving!
2. For best results, go over your pencil outline with a marker after your child gets up.
3. Let your child use their imagination to customize their gingerbread kid! They can use any of their favorite art supplies to make it beautiful.
4. When they're done, hang their finished product on the wall!
