

PAPER PLATE

Umbrellas

It's fun to **PLAY** in the rain, but it can be fun to stay inside, too! Here's a way to embrace the rainy weather while staying nice and dry inside.

Materials Needed:

- Paper plate
- Tape
- Construction paper
- Scissors
- Paint
- Paint brush

Make an Umbrella!

1. Cut a paper plate in half and have your child paint it.
2. Cut out an umbrella handle from the construction paper and tape it to the back of the plate once the paint dries.
3. Hang up your umbrella for the whole family to admire!
